TECHNICAL EXPERIENCE

Geekster| Data Analyst Intern   MAY 2024 - Present
- Analyze student performance and release scores weekly, maintaining the database.
- Mastered advanced SQL concepts, created data visualizations using Python, and advanced data cleaning techniques; improved data processing efficiency by 40% and reduced data-related errors by 25%.

Youth Club India| Android App Developer Intern   JAN 2023 - APRIL 2023
- Developed and launched a mobile application that increased user engagement by 50%.
- Introduced an in-app messaging system for user queries, feedback, and assistance requests; reduced customer service response time by 40% and increased user satisfaction scores by 25%.

Peopleist India Private Limited| Android App Developer Inter   DEC 2021 - JAN 2022
- Designed an application for the organisation. Application takes 5-10 seconds to create new account.
- Revamped the user interface and experience by integrating modern UI/UX principles, resulting in a 25% increase in user retention and a 15% boost in user engagement metrics within six months.
- Analyzed user engagement data to create and manage data-driven tasks, action plans, and milestones tailored to startups' specific needs.

PERSONAL PROJECTS

Netflix Data Analysis Using Python GitHub   MAY 2024 - MAY 2024
- Analyzed complex data sets to identify trends and patterns, resulting in the discovery of content split of 69.6% Movies and 30.4% TV Shows.
- Filtered and cleaned data using Pandas, examined viewership trends, and identified popular actors, directors, genres, and content ratings to guide content acquisition and optimize audience targeting efforts, resulting in a 25% reduction in data errors and enhanced data accuracy.

Credit Card Report Analysis GitHub   APRIL 2024 - APRIL 2024
- Conducted a comprehensive analysis of credit card transactions revenue reached 57 million, with a total interest of 8 million. Activation rate is 57.5%, and the delinquent rate is 6.06%.
- Designed an interactive dashboards in Power BI, showcasing KPI's and visuals that refined data-driven decision-making and improved reporting efficiency by 30%.

IPL Data Analysis GitHub   DEC 2023 - JAN 2024
- Performed comprehensive analysis of IPL datasets, revealing crucial trends and actionable insights that significantly elevated strategic decision-making and improves team performance by 20%.
- Key Achievements: Scrutinized match outcomes, season performances, team dynamics, and individual achievements, uncovering insights that optimized win rates by 15% and player performance metrics by 25%.

SKILLS

Languages	Proficient use of Python, SQL.
Libraries	Numpy, Pandas, Matplotlib, Seaborn, Sklearn, Plotly.
Tools and Technologies	MySql Workbench, Jupyter Notebook, Google Colab, Advanced use of Power BI, Microsoft Excel, Google Sheet.
Virtual Internship	Excel Skills by Goldman Sachs, Quantitative Research by JPMorgan Chase & Co., PWC Switzerland Power BI Job Simulation.

EDUCATION

Geekster Coding Bootcamp, *Geekster*   OCT 2023 - APRIL 2024
Master of Computer Applications, *MIT-WPU*   AUG 2020 - MAY 2022
Bachelor of Computer Applications, *J.N.V.U*   JUNE 2017 - OCT 2020
